"'Would you tell me, please, which way I ought to go from here?'

'That depends a good deal on where you want to get to,' said the Cat.

'I don't care where- ' said Alice.

'Then it doesn't matter which way you go,' said the Cat.

"- so long as I get *somewhere*,' Alice added as an explanation.

'Oh, you're sure to do that,' said the Cat, 'if you only walk long enough.'"

SENIOR PORTRAITS

Remember how far away the year 1997 seemed? The butterflies in our stomachs on the first day of high school? And not being able to find that class located next to the pool? Memories are what these days have become as this portion of our life is ending. Coming together as one unified group in the eighth grade, we have grown in character and in spirit as the class of 1997. The senior portraits, when looked at separately, represent each student's individuality, but when looked at as a whole, a wonderful image emerges- an image of hope and desire to pursue the goals and dreams possessed in everyone's heart. Our high school career lies behind us in the shadows of our footsteps, but a whole new world awaits us. No matter how far we travel from WHS/VTHS, we will always be joined by the place where we started out and we will always be the class of 1997.

THE COMPANIONSHIP ALONG OUR JOURNEY . . .

To the Class of '97,

Senior year has been an unforgettable one. We have had experiences that will be remembered for a lifetime. As a class we have been through much together. We were the first graduating class of the newly formed Intermediate School and were tested many other times. Each time we came through with flying colors. As a class we have become a solid unit that cannot be divided. I hope you will take what we have learned from our fellowship into your future endeavors. I am honored to have led this unique class through our high school career and I wish you the best of luck.

Sincerely,
Your president,
Keith Verney

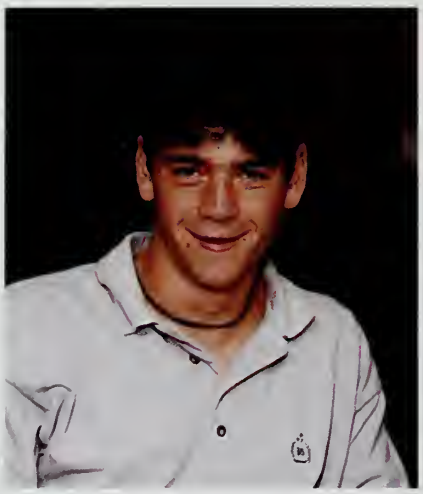
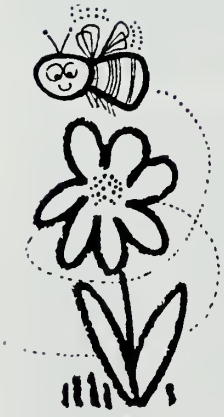
SADIDS AND CATS



CANDIDS



It seems like just yesterday
I was running fast and sound
Focused sternly on the ball
Speeding from the mound
I'd tilt my head with a cocky grin
I'd jolt when I get mad
I'd look into your eyes my friends
And I'd always play to win
I loved my life and family
With the same passion of my sports
I even gave one hundered percent
When I was feeling out of sorts
They said I was a winner
I say now I am still he
Because the person I am now
Some people refuse to see
I still tilt my head with that cocky grin
I still jolt when I get mad
I'm still sternly focused on the game
Mike Cardarelli is the name
I hit and ran with the best of them
I'll do it all again
My race is just harder now
But I intend to win
I'm playing my hardest game as yet
I'm holding back my fears
Because the race I'm in for now
Will determine my coming years
Please don't pity or stand away from me
Just extend a friendly hand
And guide me with the same respect
You gave me from the stands
I'll come through it all again you'll see
I'm a winner in all I do
I'll cry, I'll hurt, but I'll rise above
I'm still the guy you once knew

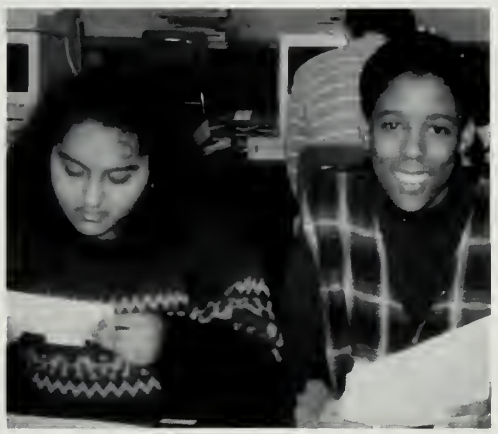
Yearbook

Many people underestimate the amount of work involved in putting together the yearbook every year. This year was more of a challenge because we started with new advisors and many new staff members who had to learn how to do things quickly. We worked everyday and many long nights to make sure everything was checked and double-checked so we could present to the class of 1997 a great yearbook.

The 1997 yearbook staff would like to give special thanks to our new advisors, Ms. Deane and Mrs. Pisciottoli, for their help. We couldn't have done it without you!



"Good luck to next year's Senior Committee."
-Julie Danner

The Senior Committee had an eventful year. The group nominated the class song and class favorites. Choosing prom favors, photographers, and organizing senior events kept everyone busy. The Senior Committee was in charge of two tables at the class flea market. They were both a success. The group was led by Class President Keith Verney, Vice President Krysia Chmielinski, Secretary Matthew Ings, and Treasurer Brian Hemenway.

This year's Reflections staff is a very diverse group of people representing all different interests. The first meeting was especially interesting; we had a new advisor, Mr. Porter, and about fifteen new people willing to devote their time and effort towards putting together a great magazine. This year's seniors have worked extremely hard in collecting, editing and organizing many pieces, such as short stories, illustrations, and poems.

" With the help of the whole Weymouth student body, we've put together a great issue of Reflections."
-Jill Yarema

This program, under the guidance of Mr. Miley and Mrs. Garvey, offers students the opportunity to get hands-on experience. Many of the students have gone on to college to major in the same area that they experienced in their internship. Other students have entered the world of work in the career of their internship experience. Many of the Weymouth companies that have hired our students offer to pay 50% to 100% of college courses while they are employees of their company.

"I enjoyed going out to the work site each day and learning from friendly professional people."
-Liz Downa

"Someone has to let Weymouth know what's going on at WHS, and that's what we do at WHS News."
-Kelly Hogan

WHS in the News is an independent group of sophomores, juniors, and seniors who contribute to a bimonthly publication in the Weymouth News. They cover everything from extracurricular activities and school events to student art and literature. WHS in the News is solely the work of WHS students. Staff members get valuable experience in writing and journalism. Over the past three years it has become an important organization for informing Weymouth about activities at the high school.

STARTING A NEW PATH . . .

AUTOMOTIVE

Auto Service Technology students learn all phases of automotive repair, including the more difficult work of diagnostics and trouble shooting. Students learn to use not only basic tools but also more complex machinery used in wheel balancing, computerized front end alignment, and engine analyzing. Students are trained to service the more than 125 million vehicles on the road today.

CARPENTRY

Carpentry introduces students to the equipment and machinery used in most quality wood shops. The construction industry can introduce students to a challenging career. Sophomores participate in building prefabricated storage sheds built to the specification of a Weymouth resident or employee. Juniors and seniors concentrate on completing a house or large addition. All students study math and science related to the trade.

COSMETOLOGY

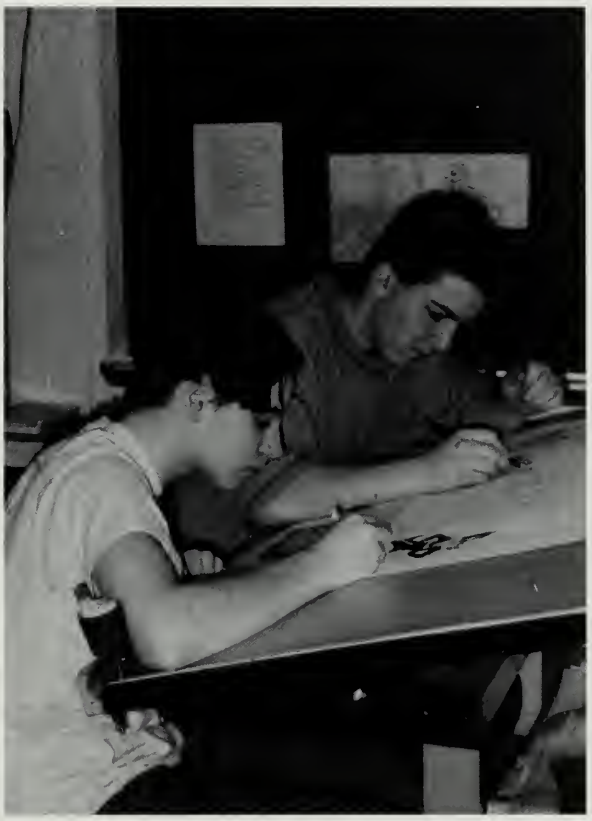
Cosmetology is one of the fastest growing trades that leads to excellent opportunities for employment. This program is designed in accordance with the State of Massachusetts licensing requirements and includes all the areas of instruction needed by students to pass the Cosmetology Licensing Examination. Students enrolled in this program will be taught the specific skills used by beauticians to create beautiful hair, nails, and makeup styles to meet the needs of customers.

CHILD CARE

The Child Care program is designed for students who are interested in getting hands-on experience working with children to prepare for a related profession or prepare for their future roles as parents. Students are given the opportunity to teach activites, guide behavior, and care for the needs of infants, toddlers, and preschoolers. Upon successful completion of Child Care II, the students receive a Vocational Certificate and will fulfill the Office for Children teacher certificate requirements.

Students in this course learn the skills used in modern drafting laboratories today. They are presented with drafting problems similar to those in the real world. Computer software helps them see the differnt techniques used in the field of drafting. Students also work on a variety of projects from industrial building plans to house plans. They also draw plans on heating and ventilation systems.

DRAFTING

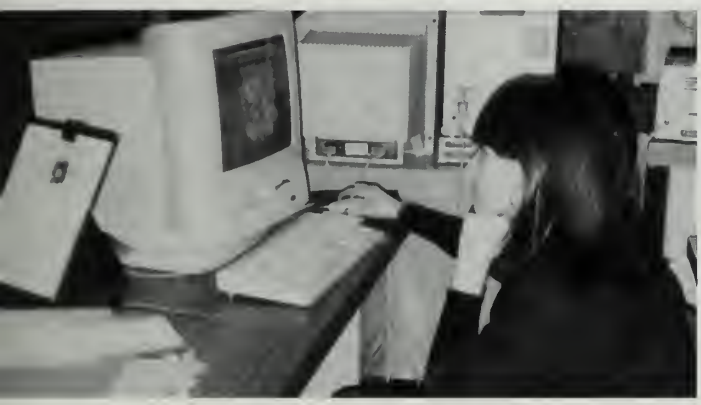


ELECTRONICS

Students taking this course learn the electronic circuit theory and use it in many areas, such as direct current, alternating current semiconductors, and digital logic. The theory also helps them in working on lab projects. Students also learn how to service computers. Analyzing parts helps them assemble and install certain components that will make the computer work. Students install and configure network interfacing cards. They also learn how to install software and cables, using networking techniques.

GRAPHIC ARTS

Today, Graphic Arts is considered an important part of the communication field. The students learn by producing the printed material necessary in the operation of the school. Students in this course learn instruction in composition and design on the computers. The students also produce printed clothing and hats for the school store. Related math and science complement the shop instruction by covering methods such as chemistry, physics, and inks.



SHEET METAL

Sheet metal is designed to prepare students for employment in the industry. Students are instructed in the use of many trade related machines and equipment. The welding trade teaches students how to perform oxyacetylene burning, Heli-Arc, and M.I.G. welding operations. They are also taught a.c. and sheet metal skills.

As our days here at WHS are ending, we look over our shoulders to those who follow in our footsteps.... Do not seek what we sought; create a new path, giving your class its own distinct character and individuality. These years of high school are brief; cherish them for they will soon become part of your past. We will soon be stepping out into the world and leaving you with the task of carrying on the spirit and traditions of WHS. High school has been a wonderful experience but our time here is over. We hope you will step up and become leaders to those who follow you. Our advise to you is: the past cannot be changed but the future remains untouched. Retrace your steps as you wish but learn from your experiences. Life is a classroom and each of us will always be a student. We wish you the best of luck in the years to come.
